

February 6, 1919.

Memorandum for Mr. Christoffers:

Herewith is a report of fishery operations in Alaska by the Trout Fisheries Company for the reason that it was not completed to the satisfaction of the Bureau. Please obtain the following information and insert it:
Value of plant. (Although leased, it should have a value.)

Wages paid 4 transporters.

Were the two seine boats, valued at \$10,000, registered vessels and if so why were they not entered in the proper column?

Was the total length of 6 beach seines 75 fathoms as stated?

Was the total length of 21 gill nets 50 fathoms as stated?

State value of pickled salmon and trout separately for each species.

The report of the Panama Pacific Commercial Company is also returned for insertion of the cost of operations and the amount paid for 1200 coho and 1350 king salmon which should be shown as wages to fishermen. From how many natives were salmon purchased?

Return these reports promptly.

Ward J. Bowen
